

Accelerate the construction of energy storage projects

What is the energy storage program?

The Energy Storage program provides operational support to clients by working with World Bank teams to advance the IDA20 Energy Policy Commitment of developing battery storage in at least 15 countries (including at least 10 fragile and conflict-affected situations).

Why is energy storage important?

Energy storage is fundamental to stockpile renewable energy on a massive scale. The Energy Storage Program, a window of the World Bank's Energy Sector Management Assistance Program's (ESMAP) has been working to scale up sustainable energy storage investments and generate global knowledge on storage solutions.

What is the energy storage Grand Challenge (ESGC)?

In January 2020, DOE launched the Energy Storage Grand Challenge (ESGC) to facilitate a department-wide strategy to accelerate the development, commercialization, and use of next-generation energy storage technologies and sustain American global leadership in energy storage.

What is the energy storage Academy?

The Energy Storage Academy was established to create a space for knowledge-sharing on energy storage. The academy is the platform which disseminates to World Bank clients the knowledge generated by the different working groups of the ESP. During 2020 and 2021, 39 countries participated and 16 have projects receiving WB support.

What is the energy storage strategy & roadmap (SRM)?

WASHINGTON, D.C. - The U.S. Department of Energy (DOE) today released its draft Energy Storage Strategy and Roadmap (SRM), a plan that provides strategic direction and identifies key opportunities to optimize DOE's investment in future planning of energy storage research, development, demonstration, and deployment projects.

Why did ECOWAS support the energy storage program?

In the Economic Community of West African States (ECOWAS), the Energy Storage Program's support was critical in preparing the Regional Electricity Access and BEST Project.

PORTLAND, Tenn., Aug. 18, 2025 (GLOBE NEWSWIRE) -- Shoals Technologies Group, Inc. (Shoals) (Nasdaq: SHLS), a global leader in electrical balance of system (EBOS) solutions for ...

We are committed to powering long-term growth for clients and their projects - such as Jupiter Power's battery energy storage systems in Michigan and Texas - through our ...

Accelerate the construction of energy storage projects

5 days ago; Australian battery storage developer Akaysha Energy has closed a \$300 million corporate debt facility that will support the expansion of its large-scale battery project pipeline ...

Entergy and NextEra Energy Resources LLC, a subsidiary of NextEra Energy Inc. announced a joint development agreement that will accelerate the development of up to 4.5 ...

Early in the year, many were cautious thinking we had set the goals too high, but in 2021 we catapulted AES to be among the top renewable players in the US, ...

NEW ORLEANS and JUNO BEACH, Fla. - Entergy and NextEra Energy Resources LLC, a subsidiary of NextEra Energy Inc. (NYSE: NEE), ...

To facilitate safe, beneficial, and timely deployment of energy storage technologies and accelerate the development of new technologies that address current and emerging ...

The Energy Storage Program, a window of the World Bank's Energy Sector Management Assistance Program's (ESMAP) has been ...

Across the country, construction of wind, solar, and energy storage projects would produce almost \$100 billion in economic growth and over a million jobs. Important steps are being taken to ...

, the U.S. Department of Energy (DOE) today announced \$428 million for 14 projects to accelerate domestic clean energy manufacturing in 15 ...

Gov. Jared Polis announced plans to expedite clean energy projects across Colorado on Friday, calling on state agencies to help utilities ...

This set of economic facts highlights the state of permitting reform and barriers to building out clean energy infrastructure.

In January 2020, DOE launched the Energy Storage Grand Challenge (ESGC) to facilitate a department-wide strategy to accelerate the ...

Initially, the \$1.25 billion revolving facility will fund the construction of six fully contracted wind, solar and battery storage projects, totaling nearly 1 gigawatt (GW) of ...

To facilitate safe, beneficial, and timely deployment of energy storage technologies and accelerate the development of new technologies ...

Accelerate the construction of energy storage projects

Enfinity secures EUR100M from Eiffel to fund solar and storage projects in Europe, advancing a 6.4 GW pipeline and expanding 24/7 clean energy.

Discover the top EV battery manufacturing and energy storage projects currently underway or slated for construction in North America. Read now!

China's new renewable energy plan aims to significantly boost the country's renewable energy consumption, setting ambitious targets for 2025 and 2030. Unlike previous ...

Gavin Newsom has signed an executive order to accelerate the permitting of energy generation projects that could be set to lose IRA support.

"The characteristics of new energy storage complement traditional energy storage technologies, providing more options for the construction of ...

It could also be used as a form of long-duration energy storage to support the expansion of renewable power. By enabling the development of diverse, domestic energy ...

In January 2020, DOE launched the Energy Storage Grand Challenge (ESGC) to facilitate a department-wide strategy to accelerate the development, commercialization, and ...

Energy Vault's \$300M deal launches Asset Vault, funding 1.5GW of global energy storage projects in the U.S., Australia, and Europe.

6 days ago· Today we announced a first-of-its-kind collaboration with Salt River Project (SRP) -- the second largest public power utility in the country -- to help accelerate the next frontier of ...

The MIT Energy Initiative's (MITEI) Future Energy Systems Center will fund ten new energy projects, with topics ranging from the intersections between energy and artificial ...

The Energy Storage Program, a window of the World Bank's Energy Sector Management Assistance Program's (ESMAP) has been working to scale up sustainable ...

Accelerate the construction of energy storage projects
