

The Bapco Modernization Programme (BMP) is the largest strategic project ever undertaken in the history of Bahrain, and for Bapco Refining, this multi-billion ...

As the world is heading towards renewable energy at a rapid speed, Bahrain is becoming an impending leader of the energy revolution in the Gulf. With an emphasis on ...

Three energy storage systems totalling 32MW, including two-hour and three-hour duration batteries, act as absorbers of surplus renewable energy on the grid. The other is a flexibility ...

Explore Bahrain's energy storage revolution--from sand batteries to AI grids. Discover how this Gulf nation is rewriting its energy rules while keeping ACs running.

Bahrain wants to bring 255 MW of solar generation capacity online by 2025 by using net metering, tenders for large-scale projects, and a renewable energy mandate for new buildings. The ...

According to industry research firm Enerdata, Bahrain's aluminium and petrochemical industry alone is responsible for 60% of energy consumption, and is the main reason why ...

These projects represent a significant step towards a sustainable energy future, where the strengths of solar, wind, battery storage, and hydrogen production are combined to ...

Explore how Bahrain's clean energy shift is creating new investment and startup opportunities. A must-read for cleantech entrepreneurs and global investors in 2025.

Market analysis of the energy market in Bahrain. Find aggregated data relative to energy projects, market players, latest updates and third-party market reports.

As Bahrain positions itself as a Gulf energy storage hub, the focus shifts to creating battery ecosystems--not just standalone installations. The recent partnership with Saudi Arabia's ...

Advanced Energy Storage BAHRAIN BATTERY PRECINCT Our pioneering precinct in the Kingdom of Bahrain represents a new era of sustainable energy ...

In 2011, Bahrain Petroleum Company inaugurated the country's first Hybrid Renewable Energy System (HRES) as a demonstration project, which partially supplies the electricity required for ...

In prosumer microgrids, storage systems can provide revenue from reduced grid consumption, energy arbitraging or when serving as back-up power.

Based in the United Arab Emirates (UAE), Dr Imran Syed is head of industrial power for Enerwhere, designing and implementing hybrid systems ...

The Baarin Left Banner area has become a renewable energy laboratory, with its 1000MW wind-solar-storage hybrid project progressing steadily since October 2024.

THE INTER-AMERICAN DEVELOPMENT BANK (IDB) Bahrain has Released a tender for Supervision - Solar Pv And Hybrid (Storage) Projects Installed In The Fi in ...

A roundup of the biggest projects, financing and offtake deals in the energy storage sector that we have reported on this year. It's been a positive year for energy storage ...

Technical drawing of the Dawn Harvest project, taken from CPNC application. Image: Invenergy Three utilities in Wisconsin are seeking ...

This innovative project marks a significant step towards sustainable telecommunications infrastructure in Bahrain, replacing a ...

Electricity and Water Authority (EWA), Kingdom of Bahrain announces the receipt of a pre-qualification (PQ) submittals for the ...

Manama, Nov. 30 (BNA): Bahrain unveiled its National Energy Strategy: a clear, credible, and responsible pathway to reaching the climate targets the Kingdom pledged to achieve at ...

This article looks into the current scenario of Bahrain's energy storage sector, researches the principal policy directions, explains the benefits and potentialities of ...

This innovative project marks a significant step towards sustainable telecommunications infrastructure in Bahrain, replacing a traditional diesel generator with a ...

The International Renewable Energy Agency (IRENA) is an intergovernmental organisation supporting countries in their transition to a sustainable energy future.
