

Battery cabinet placement on both sides

Where should a lithium battery be placed?

This gives you the flexibility to install the battery where it is best suited for your application. Here are further details regarding Battery Orientation from our User Manual: Lithium batteries can be placed upright or on their sides. Do not install batteries in a zero-clearance compartment, overheating may result.

How do I put the batteries in the battery swapping cabinet?

Here is the complete guide on how to put the batteries in the battery swapping cabinet with a hard connection, step by step: Use the Tycorun Energy App to scan the qr code. Then you will hear the voice announcement "Please put the battery in the designated slots." The battery is returned successfully.

How do battery cabinets work?

The battery cabinets use convection cooling to regulate internal component temperature. Air inlets are at the bottom and in Large Battery Cabinet also in the front of the cabinet and outlets are on the rear of the cabinet.

How do you install a battery?

Insert the battery with the positive side facing up. Most devices that use coin or button batteries install them with the positive side facing up, unless they state otherwise. If you don't see any markings on your device, it's generally safe to assume that the positive side of the battery goes in face-up.

Where is the bottom cable entry on a 93p/e Battery Cabinet?

For the 80-120 kVA models the bottom cable entry is in the front section of the bottom plate and for the 160-200 kVA models the entry is in the rear section of the bottom plate. Figure 2 -2: 93P/E battery cabinet (Large Battery Cabinet) A DC-rated circuit breaker within each cabinet provides protection and service isolation.

Can a battery be inserted backwards?

If you inserted the battery backwards in a device with a battery door, like a hearing aid, you'll likely have difficulty closing the door. Insert the battery with the positive side facing up. Most devices that use coin or button batteries install them with the positive side facing up, unless they state otherwise.
