

Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded ...

The Gabare solar PV project will be located in the northwest of Bulgaria and will be built to allow the potential co-location of a battery energy storage system (BESS) of up to ...

The investment will support the construction and commissioning of energy storage facilities from renewable energy sources with a usable energy capacity of at least 3,000 MWh, ...

These interviews explore energy storage business cases across the EU, demonstrating that these projects are viable, profitable and essential ...

These interviews explore energy storage business cases across the EU, demonstrating that these projects are viable, profitable and essential to achieving Europe's ...

Green energy is already an active participant in the electricity supply in one of the symbols of heavy industry in Bulgaria - Pernik. A large hybrid project with a photovoltaic plant ...

Austrian renewable energy firm Enery and Romanian oil and gas company OMV Petrom have agreed to jointly develop a large-scale solar and battery storage project in north ...

At the close of 2024, Bulgaria's solar PV capacity had already reached 3.91 GW--an annual increase of over 1 GW. These developments ...

Bulgaria gives special focus to energy storage Earlier this month, Renalfa IPP has started the commercial operation of its first utility-scale ...

The Ministry of Energy of the Republic of Bulgaria has announced two requests for proposals for tender participation to support new renewable ...

The Ministry of Energy of the Republic of Bulgaria has announced two requests for proposals for tender participation to support new renewable electricity generation and energy ...

With construction of the new facility planned for the start of 2024, it is the largest battery energy storage project already in implementation in ...

Bulgaria Energy Storage Photovoltaic Industry Project Construction

PPC Group is accelerating its expansion in the Balkans by laying the foundation stone for its Colosseum solar power project in Bulgaria. The facility will have 165 MW in peak ...

Bulgaria's Ministry of Energy has launched two tenders to add 1,425MW of renewable power generation to the grid and 350MW of battery ...

OMV Petrom and Enery partner in a large-scale photovoltaic project in Byala Slatina, near Sofia, Bulgaria. Thus, OMV Petrom acquires ...

PPC Group's development in the Bulgarian Renewable Energy Sources (RES) market is marked by the start of construction of a new photovoltaic power plant with battery ...

AC Solar Scape is a Bulgaria-based solar farm construction company with expertise in construction, consultation, design, operations, maintenance, and energy storage solutions. We ...

The solar energy market has grown significantly in recent years, driven by technological advances and declining costs. It is expected to continue its growth trajectory as countries and companies ...

Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded procurement exercise named RESTORE.

Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded ...

In the wake of the publication of the EU Market Outlook for Solar Power 2023-2027, it is worth taking a closer look at Eastern Europe, a region that has demonstrated ...

With construction of the new facility planned for the start of 2024, it is the largest battery energy storage project already in implementation in southeast Europe according to the ...

Several large-scale solar photovoltaic (PV) projects with a power capacity above 50 MW were launched into commercial operation in Bulgaria in 2022. Local and international ...

In a milestone move that strengthens Bulgaria's clean energy ambitions, SUNOTEC and Sungrow have inked a strategic agreement to deploy 2.4 GWh of battery energy storage ...

Enery Development GmbH ("Enery") and OMV Petrom S.A. ("OMV Petrom") are pleased to announce the establishment of a 50-50% joint venture ...

Bulgaria is relying heavily on battery technology and energy storage overall in its energy transition. Belgian

Bulgaria Energy Storage Photovoltaic Industry Project Construction

company ABEE launched a EUR 1.1 billion project in December for ...
