

Bulgaria will finance 82 projects worth over 1.14 billion leva (\$662 million/583 million euro) under an EU-funded initiative to build renewable electricity storage facilities with a ...

Bulgaria inaugurated a record-breaking battery energy storage system (BESS) with a capacity of 124 MW/496.2 MWh. According to a statement from the Ministry of Energy, ...

At the close of 2024, Bulgaria's solar PV capacity had already reached 3.91 GW--an annual increase of over 1 GW. These developments ...

The project is the first utility-scale Battery Energy Storage System in Bulgaria as well as one of the first of such scale in Eastern Europe. The ...

At the close of 2024, Bulgaria's solar PV capacity had already reached 3.91 GW--an annual increase of over 1 GW. These developments come on the heels of Bulgaria's ...

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the ...

Bulgaria has officially inaugurated the largest battery energy storage system (BESS) in the Balkans, boasting a capacity of 496.2 MWh. ...

The largest operating battery energy storage system in Bulgaria came online at the start of the month with 25 MW/55 MWh.

The park includes a 32 MWp PV plant and a 61 MWh energy storage facility, capable of powering 10,200 households, Solaris Holding said in a press release. It was built on ...

The Tenevo project, located in the Yambol Province of southeastern Bulgaria, is rolling out the first phase of a massive energy transition covering Eastern Europe, according to ...

Bulgaria Battery Storage Facility Tender gets support from us here at Blake Clough On 21 August 2024, the Bulgarian Ministry of Energy opened a tender procedure for ...

Bulgaria's legal framework and incentives for battery energy storage systems, and why the country is ripe for energy storage investment.

Solaris Holding, a joint venture between Bulgarian-German solar developer Sunotec and Eurohold Bulgaria,

Bulgarian solar energy storage facility

has commissioned its newest hybrid renewable energy facility ...

In August 2024, the Ministry of Energy issued a new tender, funded under the EU's Recovery and Resilience Facility, exclusively focused on standalone electricity storage ...

Located next to a photovoltaic park within Balkan Industrial Park, it is part of the country's first closed licensed power distribution system. The Bulgarian city of Lovech, ...

The funding is only targeted at new solar and/or wind electricity generation capacity with local energy storage facilities (ESF), with the grant funding in the ...

It highlights the balancing issue in Bulgaria and the need for energy storage, but the projects are slow, Capital reported. Government ...

In August 2024, the Ministry of Energy issued a new tender, funded under the EU's Recovery and Resilience Facility, exclusively focused ...

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants ...

Hithium and Solarpro announced they will build a 55 MWh energy storage facility in the southwestern Bulgarian town of Razlog. Construction will ...

Sunterra RE marks an important milestone in Bulgaria's energy transformation with the commissioning of major battery energy storage systems (BESS) at the Galabovo Solar, ...

Bulgaria on Wednesday launched a long-delayed tender for at least 3,000 MWh of new energy storage capacity as part of its efforts to increase the share of renewable energy ...

Another 9 projects are for solar plants plus energy storage facilities. The mayor of the city, Stanimir Vladimirov, was also pleased with the opening of the solar plant with energy ...

Solaris Holding AD, a joint venture between the Bulgarian-German company SUNOTEC and the primary shareholders of Eurohold Bulgaria AD, has officially opened a new ...

Approximately 200 million EUR investments to encourage the combination of new renewables with local electricity storage facilities (totaling around 200 MW); Transformation of AES ...

The project is the first utility-scale Battery Energy Storage System in Bulgaria as well as one of the first of such scale in Eastern Europe. The 25MW/55 MWh BESS supports a ...

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which ...
