

Cambodia Electricity Portable Power Supply

What type of power outlet does Cambodia use?

Cambodia uses power outlets and plugs of types A,C &G. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar? Do the outlets look different in your country? You'll need a power plug adapter. Type A - Mostly used in the US,Canada,Mexico,Central America,China and Japan.

What type of power plug to use in Cambodia?

Power plug type C: 2 round pins. Electric plugs and power sockets are an essential part of our modern lives,and knowing the right type to use is important,especially when traveling to a new country like Cambodia. Here are some tips on which plugs and sockets to use in Cambodia,as well as how to handle voltage and frequency differences:

How much electricity does Cambodia have?

The electricity supply in Cambodia is 230 Volts at 50Hz. The most common types of plugs that fit into Cambodia electrical outlets are type A (two flat vertical pins), type C and type G. However, if your power plug has three pins, you will need an adapter, as most electrical outlets in Cambodia do not include grounding holes.

How to get electricity in Cambodia?

When it comes to electricity in Cambodia, there are two important things to pay attention to: plugs and voltage. The electricity supply in Cambodia is 230 Volts at 50Hz. The most common types of plugs that fit into Cambodia electrical outlets are type A (two flat vertical pins), type C and type G.

What are the main sources of electricity in Cambodia?

Major sources of local power generation are hydro and coal,and minor sources include diesel,wood,and biomass. In addition to local power generation,Cambodia also buys electricity from neighboring countries,especially during the dry season.

Where can I buy a power adapter in Cambodia?

Adapters can be found at electric stores,grocery stores,and convenience stores in Cambodia,and can also be borrowed from hotels. The price is usually around 3-4 USD per adapter. Remember,even if your plug fits,it doesn't necessarily mean it will work in Cambodia,so always double-check the voltage and frequency before plugging in your devices.
