

European large outdoor power supply manufacturer

What is the European power supplies Manufacturers' Association (UKEiG)?

The European Power Supplies Manufacturers' Association UKEiG was formed in 1995 to represent the specialist needs of the power supply industry in Europe. The association currently has around 25 members from ten countries, employing over 8,000 people and with combined global revenues exceeding 5 billion Euros. Our mission statement:

Why should you choose a power supply company in Germany?

Their commitment to high-quality products and customer service positions them well to address specific market challenges. The Power Supply industry in Germany is characterized by several key considerations that potential entrants should be aware of.

How many members does a power supply association have?

The association currently has around 25 members from ten countries, employing over 8,000 people and with combined global revenues exceeding 5 billion Euros. Our mission statement: 'Promoting the Power Supply industry in Europe and Supporting its Users'

What types of power supplies are available?

AC-DC, DC-DC, and DC-AC switched-mode power supplies, available with a wide range of connector options. Power ratings of up to 1200 Watts, featuring an extensive range of input and output voltages. Multiple protection methods can be implemented. The dimensions of the SMPS will be customized to meet the customer's application requirements.

What are DC power supplies used for?

Our DC power supplies are used, for example, to extract raw materials, to generate process and ultrapure water, to refine high-quality bathroom fittings, to gild components and to provide perfect protection against corrosion in automotive engineering and agricultural machinery.
