

# Go to the countryside to install solar photovoltaic panels

How do I go solar?

Here's our quick guide to going solar. First, determine if you're a good fit based on your energy costs, home and roof setup, and location. Compare multiple quotes when going solar to find the right system at a competitive price.

How much does a solar installation cost?

According to NREL's 2021 Solar Industry Update report, national solar installers charge more than \$4 per watt for a full-service installation. So the average American home, which uses about 900 kWh of energy per month, may need around 8 kW of solar to offset its energy usage.

Should you go solar if your home is not suitable for solar?

If your home is not suitable for rooftop solar, you can still get the benefits of clean energy by investing in a community or shared solar program. By going solar, you can play an active role in achieving the nation's goal of a carbon-free electricity sector by 2035. For more information, visit the Homeowner's Guide to Going Solar.

How do I choose a home solar system?

Having a clear understanding of your energy needs will help you determine the configuration and capacity of your home solar system. There are three types of solar systems to choose from: grid-tie, hybrid, and off-grid. Grid-tie solar systems are the type of solar systems chosen by most homeowners.

Do I need a permit to install solar panels?

It will also help you determine the best system size and where to install your panels for optimal sunlight exposure. Before you begin building your system, you must secure a solar permit from the Authority Having Jurisdiction (AHJ), the official that enforces building, electric and fire codes in your area.

How do I install my own solar panel array?

The easiest way to install your own solar panel array is to buy a solar panel kit. The main solar components that come with every solar power system or solar panel kit are: Solar Panels Solar panels convert sunlight into electricity through a process called the photovoltaic effect.
