

Household energy storage lithium battery wholesale

Why do we supply bulk lithium-ion batteries?

Our strong network of partners enables us to supply bulk lithium-ion batteries with an internal emphasis on quality control and customer support. As a dependable lithium-ion battery supplier and battery pack manufacturer, we can deliver reliable energy storage solutions for any application.

What is the containerized lithium battery energy storage system?

The containerized lithium battery energy storage system is based on a 40-foot standard container, and the lithium iron phosphate battery system, PCS, BMS, EMS, air conditioning system, fire protection system, power distribution system, etc. are gathered in a special box to achieve high integration.

Who can supply lithium-ion batteries in-house?

If you desire to prototype or assemble battery packs in-house, we can supply cutting-edge lithium-ion cells from leading manufacturers like Panasonic, Sanyo, LG, Samsung, Sony, BAK, Lishen, and others.

What industries do you supply lithium-ion battery packs?

Our core competency is in the large-scale manufacturing of small to medium format lithium-ion battery packs. Some industries we supply include home energy storage, electric vehicles, medicine, military, computing, power tools, robotics, sensors, and more.

Why are lithium-ion battery storage systems so popular?

Our lithium-ion battery storage systems are very popular due to their high efficiency (92 % to 98 %), long cycles, security, and scalability. The battery systems are designed for use in independent (network-independent) and commercial backup current supply systems (USV).

Are lithium ion batteries safe?

Fueled by production scale from electric vehicles, laptops, and other devices, lithium-ion is on track to be the world's premier form of clean energy storage. Modern lithium-ion batteries are safe, inexpensive, and offer performance benefits over all other battery types. Can you do something for every industry?
