

How many 5G base stations does Vietnam Mobile have

How many 5G stations does Viettel have?

According to Nokia, the equipment was manufactured locally. By the network launch on October 15, Viettel claimed to have installed more than 6,500 5G base transceiver stations, covering all 63 provincial capitals, industrial zones, tourist sites, ports, airports, hospitals, and universities.

Does Vietnam have a 5G network?

The Military Industry and Telecommunications Group (Viettel) officially commercializes the 5G network | Source: VnEconomy. The Vietnamese government is upgrading digital infrastructure by deploying new international undersea fiber optic cables and developing data centers by 2025.

How many base stations does Viettel Mobile have?

With over 6,500 base stations, Viettel's 5G service now covers all 63 provinces, including industrial parks, tourist areas, seaports, airports, hospitals, and universities. This launch coincides with the 20th anniversary of Viettel Mobile, marking a significant milestone in Vietnam's mobile evolution.

How many 5G transmission stations will Viettel install in 2024?

Viettel plans to install over 3,000 transmission stations to ensure comprehensive 5G coverage nationwide by the end of 2024. In Vietnam, projections indicate that 5G technology could contribute approximately 7.34% to GDP growth by 2025, significantly enhancing productivity across various industries.

Will 5G be commercialized in Vietnam?

According to the Ministry of Information and Communications, 4G coverage in Vietnam is currently 99.8%, higher than even developed countries with high incomes with only 99.4%. This is a step forward for 5G to be commercialized in Vietnam just a few months ago in October. Source: Vatvostudio.

How fast is Viettel Mobile 5G?

This launch coincides with the 20th anniversary of Viettel Mobile, marking a significant milestone in Vietnam's mobile evolution. The 5G network offers speeds of 700 Mbps to 1 Gbps - up to ten times faster than 4G - with near-zero latency.

Vietnam targets 68,457 5G base stations by 2025, covering 90% of the population and enabling nationwide digital transformation.

The Viettel Military Industry and Telecoms Group (Viettel) will officially launch the first 5G service in Vietnam on October 15, with faster internet speeds and ultra-low latency.

The architecture of the 5G network must enable sophisticated applications, which means the base stations
