

How much is the subsidy for the Croatian energy storage project

How much does Croatia pay for renewable power plants & batteries?

The Government of Croatia has prepared EUR 60 million in subsidies for businesses to install renewable power plants and batteries. Subsidies for energy storage facilities linked with new production capacities are increasingly becoming a standard in European countries. The latest example comes from Croatia.

How much money does Croatia need to install solar power in 2022?

The Croatian government has allocated EUR60 million (\$65.6 million) in subsidies for businesses to install 80 MW of renewables and 20 MWh of batteries. Croatia may only install 2.5 MW of PV in 2022.

How much does a project cost in Croatia?

The Croatian Ministry of Economy and Sustainable Development said the goal is for companies to produce energy for self-consumption, which should bring down energy costs. Companies can secure between EUR100,000 and EUR2 million per project. Developers can apply for multiple projects, with the maximum amount per single applicant capped at EUR4 million.

How many MW of PV will Croatia install in 2022?

Croatia may only install 2.5 MW of PV in 2022. The Croatian government is providing EUR60 million for companies in the processing industry and heating sector to install front-of-the-meter and behind-the-meter PV arrays, biomass projects, biogas-fired power plants, and battery storage installations.

Why did the European Commission refer Croatia and Hungary to CJEU?

The latest announcement closely follows the European Commission's decision to refer Croatia, Hungary, and Portugal to the Court of Justice of the European Union (CJEU) for failing to turn the EU Renewable Energy Directive into national legislation by June 30, 2021.
