

How to install batteries in a signal base station

How do you replace a battery in a base station?

To replace batteries in a SimpliSafe base station, rotate the base counterclockwise (CCW) to remove it, then remove the batteries and replace them while ensuring the (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.

How many batteries does the base station take?

The Base Station takes four(4) 1.2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries. Regular alkaline batteries should never be inserted into the Base Station, as they may damage the device. Once you have acquired the necessary NiMH rechargeable batteries, you can follow the steps below to replace them:

How do I remove the battery on my ring base station?

Ring doesn't recommend that users remove the batteries on their base stations to prevent them from getting damaged. If you must remove the battery on your base station, here is a guide to successfully do it. All you'd need for this is a screwdriver. To remove the base station's backup battery, follow the steps below: Unplug the Base Station.

Can you put alkaline batteries in a base station?

NEVER insert regular alkaline batteries into the Base Station as they may damage the device. Plug your Base Station back into power. Was this helpful? Does your Keypad look like the one pictured to the left?

How do I remove the base station's backup battery?

To remove the base station's backup battery, follow the steps below: Unplug the Base Station. You don't want to start fiddling with the device while it is plugged in. Turn the device upside down and locate the battery compartment at the device's base. Unscrew the battery compartment and pull out the protective casing.

How do you remove a NiMH battery from a base station?

Remove the power plug from the bottom of the base station to expose one screw. Remove the screw, rotate the base counterclockwise, and it will pull off. Remove the NiMH batteries and replace them while ensuring the correct (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.
