

Huawei inverter in Congo DRC

What happened to Huawei in Congo?

Telecom giant Huawei is now the latest Chinese company to be embroiled in controversy in the Democratic Republic of the Congo. The company is to appear again in the Gombe Commercial Court in Kinshasa to settle a bitter feud regarding a 2018 judgment against the company for \$105 million for allegedly failing to build a promised telecom network .

Who built a data center in the Democratic Republic of the Congo?

Prime Minister of the Democratic Republic of the Congo Sama Lukonde Kyenge on Thursday inaugurated a data center at the Ministry of Finance, a project built by the Chinese tech giant Huawei. (DRC Prime Minister's Office/Handout via Xinhua)

Is Huawei data center a 'powerful symbol' of collaboration with DRC?

Chen Mingliang, the general director of Huawei DRC, noted that the data center is a 'powerful symbol' of the collaboration between Huawei and the DRC while affirming that his company will do its best to ensure the cybersecurity of this project.

Why is China building a data center in Congo?

While thanking the Chinese government and the Export-Import Bank of China, Congolese Minister of Finance Nicolas Kazadi said this data center will promote modernization, good governance, and the anti-corruption campaign in the country.

Why is the DR Congo struggling?

The DR Congo will be saddled with debt and poor quality infrastructure as a result of the faulty 2008 deal between the state-run mining company Gecamines and a consortium of Chinese investors,

How would a data center help the Congolese economy?

The data center, financed by the Export-Import Bank of China, would allow the Congolese authorities to centralize, merge, secure, and store information on financial management activities, which would further contribute to national innovation and economic growth. ?
