

Hungary new photovoltaic module project

The new facility near Szolnok will be one of the largest in Central Europe, with support from Chinese company Huawei providing equipment for ...

With these new high-quality solar projects, Photon Energy continues to strengthen its role in Hungary's renewable energy transition, reinforcing the Company's commitment to ...

Recently, the Tokaj region of Hungary has achieved a major green energy milestone, as the photovoltaic project created by Hungary Xihe New Energy Development Co., ...

Hungary's renewable energy landscape is poised for a significant boost as Uniper embarks on the construction of two large-scale solar photovoltaic projects. These solar parks ...

Uniper is advancing its renewables activities and kicked off the construction phase of two new solar photovoltaic (PV) projects in Tét and Dunaföldvár, Hungary. The two PV parks will ...

Numerous Hungarian news sites have extensive coverage on solar energy projects in the nation, as do investment and business news sites worldwide. I was able to find ...

The new solar PV power plants, with a total capacity of 5.1 MWp, have commenced operations in Tolna, Hungary, set to operate under a merchant model. Photon ...

The Hungarian government has announced that a 233 MW solar power plant has begun commercial operations in the municipality of Mez?csát, ...

The new facility near Szolnok will be one of the largest in Central Europe, with support from Chinese company Huawei providing equipment for the project. The primary driver ...

3Sun 3Sun factory, founded in Catania in 2010, is set to become Europe's largest factory producing high-performance bifacial photovoltaic modules. 3Sun ...

Hungary-based Astrasun Solar Kft. has announced plans to set up integrated wafer, cell and solar module production facilities in Romania. The ...

With these new high-quality solar projects, Photon Energy continues to strengthen its role in Hungary's renewable energy transition, ...

With no practical possibility for new power plants to obtain feed-in connection capacities in recent years, the Hungarian government has decided to develop a new grid ...

PVTIME - Renewable energy capacity additions reached a significant milestone in 2023, with an increase of almost 50% to nearly ...

China-based Tongwei and UK-based GoldenPeaks Capital (GPC) have signed a 508 MW PV module supply agreement for projects in Hungary and Poland. The collaboration ...

Astronergy is poised to supply 14.5MW of TOPCon PV modules for an agricultural ground power station in Hungary. These modules will support the Bicske project, developed by ...

Swiss power producer Axpo has signed its first power purchase agreement (PPA) in Hungary for three solar plants that began operations in 2024. Scientists have proposed a ...

ABO Wind, a top European renewable energy developer, has grid-connected Hungary's 12.2 MW solar project with Astronergy modules. More ...

The construction of the "Kaba 2" solar power plant in Eastern Hungary has started. MET Group's seventh photovoltaic project is scheduled to start commercial operations in the ...

Time flies, and on May 7, 2024, Shanghai Electric Power, a subsidiary of State Power Investment Corporation, once again received good news in Hungary. The Tokaj 197 ...

Siófok and Keszthely, two prominent Hungarian cities, have been added to the solar energy map with new photovoltaic projects aimed at boosting the region's renewable energy capacity.

German energy company Uniper has started the construction phase on several solar PV projects in Hungary, Germany and the UK. In ...

Uniper announced five solar generation projects with a combined capacity of about 233 MWp in Germany, Hungary and the UK.

3 days ago; Recently, the board of Indian company Websol Energy System approved a phased photovoltaic expansion plan with a total investment of 30 billion rupees. Through a wholly ...

The construction of the "Kaba 2" solar power plant in Eastern Hungary has started. MET Group's seventh photovoltaic project is scheduled ...
