Do you offer a free sunroom design?

Our design team are happy to provide a free sunroom home or virtual consultation and survey to make sure that the design is suitable for the home. Our sunrooms are glazed with 28mm double glazing low E glass. This means that the heat is reflected back into the room keeping the room warm and cosy.

How many sqm should a new sunroom have?

You must have 25sqm of garden left after the new sunroom is complete. The sunroom floor area must not exceed 40sqm or the sunroom plus any other extensions you may have already added must not exceed 40 sqm. The sunroom roof must not exceed 4m in height. The sunroom must be on the ground floor.

Is a sunroom a good idea?

Highly recommend. A sunroom is a bright warm light filled space that usually projects out beyond the rear of the house into the back garden so that one can sit in their warm comfortable sunroom and enjoy the view of the garden even when the weather is not suitable to sit outside. A Bright warm light filled space.

Why do we have a new sunroom design?

The new design is in response to consumer demand for a more cost effective sunroom system and also for maximizing sunlight. This new sunroom construction eliminates the need for a full steel structure which can often result in bulky steel uprights, upsetting the view to the garden and reducing the amount of sunlight.
