How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost? Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.

What are the different types of solar panels in Malaysia?

Some of the common brand of solar panels in Malaysia include First Solar, Jinko, GCL, Hanwha. Another factor in the overall cost to install solar panels for your home is the inverter. For a really cost-sensitive installation you can find an unknown brand generic inverter but be careful because you'll get what you pay for.

Which solar inverter should I buy in Malaysia?

It is much better to pay a little bit more and get a reputable brand that has been servicing the Malaysian market for a few years such as Canadian Solar, Longi or Jinko. You can also choose to opt for a European made inverter and pair this with a premium solar panel.
