Who makes reefer containers?

TLS buys spare parts from Daikin for manufacturing reefer containers. Yet another Chinese giant, CXIC was founded in 1996 in Changzhou, China. The company has a total annual production capacity of 900,000 TEU of ISO containers and 25,000 units of special containers. CXIC exports 90% of its products to over 40 countries across the world.

What sizes can reefer containers transport?

Any size container can have refrigeration added, but we have 2 standard sizes 20' reefer and 40' reefer. What Kinds of Items Can Reefer Containers Transport? Industry standards climate control technology helps the following products move around the globe without becoming degraded or experiencing unintentional spoilage.

Why do reefers use refrigerated shipping containers?

Reefers have decades of use transporting perishable and delicate materials like meat, fish, dairy, vegetables, flowers and plants, blood plasma, film, and reagents for testing that would go bad during a long ocean crossing. While refrigerated shipping containers' primary use is for moving cold cargo, there are many other uses.

What are the different sizes of conglobal refrigerated containers?

Reefers come in 10', 20', and 40' sizes. ConGlobal's refrigerated containers are equipped with new Carrier brand refrigeration units. These units have stainless steel exteriors and interiors, and double rear doors. They can maintain temperatures between -30°F to 80°F. Each new reefer includes a 5-year factory warranty.

Are reefer containers a good investment?

Reefer containers are the backbone for many industries including food & beverage, pharmaceutical, chemical industries, etc. Although the reefer container market is expected to grow at 3% to 2026, companies still find it difficult to get their hands on reefer containers at the right prices.
