

# NIMBY effect communication green base station

What is NIMBY?

It consists of a social community's direct opposition to the negative effects of a new project on its local area. It is not a phenomenon that is exclusive to the installation of renewable energy parks, however. NIMBY can also be related to the installation of telephone antennas, airports, nuclear power plants and landfills.

What is the NIMBY response?

The NIMBY response refers to the opposition of individuals or groups to new developments, acknowledging the necessity of a facility or technology but opposing its location within their own community. You might find these chapters and articles relevant to this topic. 2009, International Encyclopedia of Human Geography P. Hubbard

What is a NIMBY campaign?

For my purposes, a NIMBY is someone who leads or participates in campaigns aimed at preventing particular infrastructure construction projects in their vicinity, including RE projects. The immediate and central aim of NIMBY campaigns is to prevent such projects from going ahead. 1.

Are NIMBY concerns a barrier?

"Not in my backyard" or NIMBY concerns are one potential barrier if facilities are sited near large populations (and large sources of food waste) (Levis et al., 2010). Potential concerns could be associated with increased traffic or odor (ReFED, 2016; Khalid et al., 2011).

Why do NIMBYs oppose wind farms?

Derek Bell et al. have argued that NIMBYs' opposition to infrastructure projects that the general public - in principle - approve of, such as wind farms, reflects a particular kind of collective-action problem. They argue that opposition to wind farms is individually rational while it is collectively rational to have renewable

Why does NIMBY happen?

NIMBY takes place because people do not want to lose what they have and they do not trust the large and powerful institutions that try to site major facilities near their homes. But NIMBY is not a natural phenomenon; it is a social construct that needs to be addressed.

What is the NIMBY phenomenon? NIMBY is an acronym for "Not in My Backyard". It consists of a social community's direct opposition to the negative effects of a new project on ...
