

New Zealand solar water pump inverter manufacturer

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who makes able solar water pumps?

Dedicated to optimal efficiency and delivering a complete solution, Able Solar uses and supplies Lorentz solar water pumps- a leading manufacturer and global leader in solar-operated pump systems. Each solar-powered water pumping system is made up of a Lorentz pump end, brushless, 3ph pump motor and a controller.

What are the best water pumps NZ has to offer?

The best water pumps NZ has to offer makes use of solar power systems. Increase the supply of water and benefit from the abundance of clean, alternative energy with Lorentz pumps. If you have an excellent water source within your farm that's beyond the reach of any power source, it might well be worth a look.

What is a solar-powered water pumping system?

Each solar-powered water pumping system is made up of a Lorentz pump end, brushless, 3ph pump motor and a controller. This modular concept keeps all the electronics above ground providing ease of access for simple servicing which in turn makes these very economical to own.

How much does a solar power system cost in New Zealand?

\$14,350.00! 20 Suntilite 250W Solar Panels, 5kW Solax String Inverter, supplied and installed. New Zealand's best Solar Power Systems! The price of solar has come down significantly over the last decade, making now the ideal time to invest in installing your own Solar Electricity Generation System.

Can a Lorentz solar pump help a New Zealand farm?

Remote water sources will never again be a problem for New Zealand farms. With a Lorentz solar pump, you can draw water from anywhere and any source, or work with an irrigation system you already have and operate. With efficient water supply and management in place, good land is used to its full capacity.
