

Northern Cyprus Communications Green Base Station Project

Does Northern Cyprus have a telecommunications infrastructure?

Northern Cyprus has been proactive in upgrading its telecommunications infrastructure. The state-owned telecommunications company, CYTA, manages most of the island's telecom and internet connections. However, the liberalization of the sector has allowed private companies to emerge, fostering competition and innovation.

What telecommunications companies are in Northern Cyprus?

The state-owned telecommunications company, CYTA, manages most of the island's telecom and internet connections. However, the liberalization of the sector has allowed private companies to emerge, fostering competition and innovation. A significant milestone in Northern Cyprus's telecom development is the Quantum Cable project.

Why is the European Union subsidising Northern Cyprus?

The European Union has been subsidising a host of economic and social projects since 2011. One of the aid programme's major aims is to expand and improve the infrastructure in Northern Cyprus with a view to alleviating serious deficiencies, especially in energy, transport, water supply and telecommunications.

Does Northern Cyprus have 4G?

Telsim Vodafone: Telsim Vodafone also offers a diverse array of packages, making it a strong competitor in the market. Currently, 4G technology is not available in Northern Cyprus, meaning mobile internet speeds typically range between 3-7 Mbps with a ping of 20-30ms.

Does Northern Cyprus have a good internet connection?

However, it's important to note that internet speeds in Northern Cyprus may be lower and costs higher compared to other countries, reflecting the ongoing development of the infrastructure. Mobile internet in Northern Cyprus is facilitated by two main providers: Kuzey Kibris Turkcell (KKTCELL) and Telsim Vodafone (KKTC Telsim).

Why should Cyprus be a regional data gateway?

At the same time, it is a decisive factor in establishing Cyprus as a regional data gateway in the Eastern Mediterranean region and in attracting high-tech companies.
