

Outdoor power supply is worth buying

What should I consider when buying a portable power station?

The most important thing to consider when shopping for a portable power station is the amount of power and battery capacity you need. The price range for portable power stations can range from a fairly inexpensive product to a large-sized investment.

What is the best portable power station?

If power and battery capacity are what you are after, the Delta Pro is the ultimate large-form power station. If you are searching for a compact portable power station for on-the-go activities, the Jackery Explorer 300 is our recommendation. This unit is ideal for charging phones and laptops or running small appliances like lights and fans.

Do all power stations provide a power source?

While all power stations are intended to provide a power source, each model differs in their overall design and included features. Some models have an intuitive mobile app to fully control your power station wirelessly. Others may offer expandable battery capacity, and some are advertised as being used as an uninterruptible power supply.

How important is a good display when buying a power station?

While maybe not the first consideration when shopping for a power station, a good display becomes an important factor when the power goes out. The EcoFlow Delta Pro landed at the top of our usability metric.

Which ecoflow power station should you buy?

The EcoFlow Delta Pro is one of the most extensive units on the market. Between its dialed display, massive expansion capabilities, and a plethora of add-ons, this power station checks off all the boxes.

Which Jackery power station should I buy?

And we measured other things you'll want to know, like how long they take to recharge, their weight, and how easy they are to use. The Jackery 2000 Plus is the best power station for those who need ample power.
