Who are the top 20 global photovoltaic module manufacturers?

During the conference, PVBL announced its annual ranking of the top 20 global photovoltaic module manufacturers. In 2024, the global solar module market continued to see the strongest players thrive, with the top four enterprises -- JinkoSolar, LONGi, Trina Solar and JA Solar -- collectively shipping over 320GW and dominating the industry.

Which solar company is best for a photovoltaic project?

Among them: Canadian Solar: With a production capacity of 61,000 MW, this brand is synonymous with quality, innovation, and reliability in the solar industry. Jinko Solar: The absolute leader in the list, with 120,000 MW of capacity, making it one of the most solid choices for any photovoltaic project.

Where are portable solar panels made?

Another portable solar panel option, Ascent Solar, manufactures solar panels for use in extreme environments. Their products are made in Thornton, Colorado, near Denver. They do all research and development, product design, manufacturing and production, and corporate office work at their 139,000-square-foot facility.

Where are auxin solar panels made?

Located in Silicon Valley, Auxin Solar is 100% owned, operated and headquartered in the U.S. They both produce Auxin branded panels and serve as an original equipment manufacturer for other brands. They are the oldest U.S. solar manufacturer and largest domestic producer of bifacial panels. They have a 150 Megawatt capacity.

Where are Tesla Solar panels made?

Tesla is one of the top names in electric technology. Their all-electric performance vehicles put them on the map, but the company has expanded to solar panel production as well. All of their panels are made at the Tesla Gigafactory 2 in Buffalo, NY. The factory is massive, being 1.2 million square feet on 88 acres.
