

# Polish solar lighting system wholesale

How does solar lighting work?

The principle of solar lighting is relatively simple. The lanterns are equipped with special panels which collect energy from the sun and convert it into electricity which can be used to power the lighting.

What are the different types of solar lights?

The Plaza series are solar lamps, ideal for lighting houses, playgrounds, parks, squares, pedestrian walkways, gardens, or sidewalks. They have a motion sensor and a remote control. The Guard series are solar lamps intended for illuminating public spaces.

What certifications do solar lamps have?

All lamps have the following certifications: CE,FCC,ROHS,SASO,ISO9001,INTERTEK REPORT. Solar lamps use only ecological,commonly available solar energy. Each of our LED solar lamps has the appropriate certificates. If you are interested in purchasing solar lamps or LED street lights,we encourage you to visit our online store.
