

Roll-up outdoor power supply

How much power does a roll-on power supply provide?

The Power Supply delivers 7200W of starting power and 3600W of running power to power tough applications. ROLL-ON(TM)'s pure sine wave inverter protects sensitive electronics and features pass through power for the ability to charge and discharge simultaneously.

What is a roll-ON(TM) power supply cover?

Integrated with ONE-KEY(TM) technology, allowing the ability for tracking, management and adjustable charge rate options to maximize outlet usage onsite. ROLL-ON(TM) includes a 3-year warranty. Compatible with the ROLL-ON(TM) 7200W/3600W 2.5kWh Power Supply Cover (48-11-3300) to protect against dust and debris in storage (sold separately).

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.
