

Slovakia reached its 2020 EU targets for GHG emissions, share of renewable energy and energy consumption without having to make use of flexibilities. The country's over-achievement in all ...

Discover how Slovakia's innovative energy storage initiatives are solving grid challenges while preserving ecosystems. This article explores technical solutions, environmental safeguards, ...

Slovakia's Ministry of Economy announced on Friday (19 January) a call for projects linked to the modernisation of pumped hydroelectric power plants and the ...

As battery storage becomes increasingly important in the quest to fully utilise renewable energy sources, a raft of projects in Slovakia is looking ...

According to a draft analysis performed by the Institute for Environmental Policy (Analysis of the development of waste management in Slovakia, currently under review), mixed municipal ...

ENGIE's first battery storage system in Slovakia, utilizing Pixii's PowerShaper technology, began operations in January 2024. This BESS is ...

Polluters may access significant public funding for projects related to decarbonization, energy efficiency, energy storage, and renewable sources from the ...

The EU's binding climate and energy legislation for 2030 requires Member States to adopt national energy and climate plans (NECPs) covering the period 2021 to 2030. In ...

Wattstor and ENERGE are proud to announce their collaborative deployment of battery storage for ancillary services in Slovakia. Slovakia's grid just got a ...

By combining pumped hydro and battery storage, the project will help optimise grid flexibility, reduce system costs and make better use of renewable energy sources.

The Connecting Europe Facility for Energy (CEF Energy) is supporting the studies with a grant of more than 2.1 million euros for the modernisation of the ?ierny Váh pumped ...

The European Commission has approved a EUR44 million Slovak scheme to support electricity storage facilities to foster the transition towards a net-zero economy, in line with the ...

Regulators are now assessing a proposal for the country's first CO₂ storage site near Golianovo, close to Nitra. The project, led by the gas firm Engas, aims to repurpose a ...

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 GWh ...

To tackle these challenges, Greenbat and Pixii initiated a project, facilitated by MTS spol. s r.o., Pixii's exclusive representatives for Slovakia, Czech Republic, and Hungary, to install and ...

Summary: Explore how Slovakia's EK Energy Storage Project is revolutionizing renewable energy integration through cutting-edge battery storage technology. This article examines its technical ...

In November, the European Commission approved a direct grant scheme from Slovakia for developing energy storage facilities and promoting the transition to a net-zero ...

To tackle these challenges, Greenbat and Pixii initiated a project, facilitated by MTS spol. s r.o., Pixii's exclusive representatives for Slovakia, Czech Republic, and Hungary, ...

Why is pumped storage important in Slovakia? Coupled with pumped storage technologies, this popular source in Slovakia is regarded as the key to lower disruptions in the national ...

The company's project, ENGAS CCS, is the first of its kind in the nation, focusing on Carbon Capture and Storage (CCS) technology--a critical component in the global fight against ...

A public consultation on the project was held on 15 May, with participation from both professionals and the general public. Slovakia's ...

Polaris Energy Storage Network learned that on April 27, the tender announcement for the first batch of energy storage equipment for the Green Demonstration ...

The Slovakian project will be the first of its kind in Europe, delivering gigawatt-hour-scale energy storage capacity to capture surplus electricity from VVB's hydropower stations ...

To tackle these challenges, Greenbat and Pixii initiated a project, facilitated by MTS spol. s r.o., Pixii's exclusive representatives for Slovakia, ...

Regulators are now assessing a proposal for the country's first CO₂ storage site near Golianovo, close to Nitra. The project, led by the gas ...
