Solar Direct offers over 400 solar and renewable products. Shop DIY solar panels, water heaters, lighting solutions, appliances, and more at Solar Direct. Ready to Get Started? Get a Hassle-Free Solar Assessment Today!

What is a solar home system?

A Solar Home System is an independent energy setup designed to power residential appliances using solar energy. It consists of solar panels, a battery, inverter, and charge controller. These systems are especially beneficial in areas with unreliable grid power or where homeowners wish to reduce their carbon footprint.

Why should you choose universal solar direct?

When you choose Universal Solar Direct, you can enjoy a range of benefits that include customized solar energy solutions, top-quality solar panel systems, and energy-efficient products, expert installation services, affordable investment programs, and exceptional customer service. Explore All Features!

How can a solar home system be financed in India?

Inspect wiring and connections annually. Monitor system performance through mobile apps or control panels. The Indian government offers subsidies under schemes like MNRE (Ministry of New and Renewable Energy), reducing the upfront cost of installing a Solar Home System.

Should you buy a home solar panel kit?

Take the easy route - instead of buying and assembling parts one by one, opt for a complete home solar panel kit. DIY solar kits ensure a seamless and straightforward transition to solar, providing all the essential components you need to set up solar power for your home and start lowering your utility bill.
