

Solar panel shipment

Which solar panel shipping options are available?

Two primary solar panel logistics options are available for shipping: truckload freight and flatbed freight. Truckload freight is best for smaller or residential solar panel transportation, while flatbed freight is ideal for larger solar panels going to farms and commercial properties.

Where can I ship solar panels?

Heavy Haulers provides solar panel shipping solutions anywhere in the United States. That includes Alaska and Hawaii. We also transport solar panels overseas. We have a dedicated international transport team ready to take your call. Whether domestic or international, we handle all the paperwork so you have an easy solar panel shipping experience.

Are there companies that ship solar panels?

The answer is yes! There are companies that specialize in shipping solar panels all over the world. However, there are a few things you need to keep in mind when doing so. First of all, you need to make sure that the company you're working with is reputable and has experience shipping solar panels.

Is freight shipping necessary for solar panels?

Solar panels often require freight shipping services due to their oversize dimensions and the need for careful packaging. Freight shipping solar panels involves protecting the fragile cargo from damage during transit and ensuring careful and on-time delivery. It takes the right freight partner to ensure solar panels are transported safely.

How do solar panels get shipped?

Solar panels, such as those manufactured in Taiwan, are typically shipped via ocean freight to Long Beach, California. Subsequently, they may be transported via full truckload shipping to a distributor's warehouse in Miami, Florida. Large solar panels, like those used on solar farms, might require oversize freight shipping services.

How much does it cost to ship solar panels?

That said, in general, you can expect to pay anywhere from \$50 to \$200 to have your solar panels shipped. If you're looking for a more exact quote, it's best to get in touch with a solar panel shipping company and provide them with all the details of your shipment.
