

South Sudan Solar Energy Construction Site

Does South Sudan have a solar power project?

South Sudan has taken a significant step toward renewable energy with the launch of its first major solar power project. The Ezra Group, a leading business conglomerate, has successfully developed and financed a 20-megawatt (MW) solar power plant along with a 14-megawatt-hour (MWh) Battery Energy Storage System (BESS).

Why is South Sudan launching a 20 MW solar power facility?

The inauguration of the 20 MW solar power facility in Gondokoro signifies a monumental leap forward for South Sudan's renewable energy sector. With this project, South Sudan becomes one of the few nations in Africa to harness solar energy on such a scale, showcasing its potential for sustainable development.

What projects are underway in South Sudan?

Plans are already underway for other projects like the government-owned Nisitu Solar Plant which will complement existing structures and enhance overall grid reliability. Ezra Construction & Development Group is dedicated to expanding renewable energy solutions across South Sudan.

Why should South Sudan invest in solar power?

By investing in solar power and battery storage technology, the country is making a decisive move toward energy independence, economic growth, and a sustainable future for its people. South Sudan has taken a significant step toward renewable energy with the launch of its first large-scale solar power project.

Why is South Sudan struggling to provide electricity to its citizens?

According to a 2024 sciencedirect.com report, South Sudan struggles to provide its citizens access to electricity despite having abundant energy resources, particularly fossil fuels.

How does Juba's solar project work?

The solar plant is projected to provide clean electricity to approximately 16,000 households in Juba alone, significantly lowering energy costs while enhancing grid stability. The successful rollout of this solar project was made possible through strong partnerships among various stakeholders.

Ezra Group launches South Sudan's first 20 MW solar plant with 14 MWh battery storage, enhancing clean energy and grid stability.

Deputy Information Minister Dr Jacob Maiju Korok said the Minister for Energy and Dams, Peter Marcello, Friday presented to the Cabinet a plan of US\$150 Million Juba Solar ...

The capital of South Sudan is set to host a new 12 MWp grid-connected solar plant. The nation had just 1 MW
