

Spain's Ministry of the Environment has formally launched its latest financial support scheme for energy storage, aiming to kickstart the deployment of 2.5-3.5GW of projects.

Analysing Spain's battery storage landscape LCP Delta and Santander Corporate & Investment Banking Providing insight, analysis and finance to support the global energy transition LCP ...

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It ...

12 hours ago; Spain's EUR700 million BESS Spain scheme boosts battery storage, strengthens grid reliability, and drives renewable energy integration nationwide.

Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive tendering to support large-scale energy ...

The project will be built in the Spanish region of Castile-Leon, west of Valladolid, spanning a total area of 163 hectares. Development of co ...

For stand-alone power storage assets: -- Even though there is distinction between durations, projects with longer duration than 8h are all awarded the same score -- Projects with ...

Spain has incredible wind conditions and has long been one of Europe's most progressive renewable energy markets. Amp Spain has over 2 GW of wind ...

Spain's Ministry for Ecological Transition and the Demographic Challenge (MITECO) has published the provisional resolution of its first tender for innovative storage projects.

Listed below are the five largest energy storage projects by capacity in Spain, according to GlobalData's power database. GlobalData uses proprietary data and analytics to ...

Spain has launched a EUR700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5-3.5 GW of capacity. The initiative, ...

More than 182 MW of the battery energy storage systems (BESS) highlighted in Spain's Official State Gazette (BOE) are for hybridization with existing solar and wind ...

Spain's Ministry for Ecological Transition and the Demographic Challenge (MITECO) has provisionally selected 34 projects to receive a total ...

The scheme aims to deploy between 2.5 and 3.5 gigawatts (GW) of new storage capacity, enhancing the flexibility and resilience of the national power system while enabling ...

Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive ...

First solar plus battery energy storage PPA signed in the Spanish market will allow Zelestra to build a 170 MWdc solar and 400 MWh battery storage hybrid project to supply ...

This initiative, coordinated by the Ministry for the Ecological Transition and the Demographic Challenge (MITECO), seeks to catalyze the deployment of between 2.5 GW and ...

Norwegian state-owned power producer Statkraft AS on Wednesday unveiled plans to construct a 50.4-MW wind farm with an 8.5-MW ...

The Spanish government approved Royal Decree 7/2025 on June 24, resolving several long-standing obstacles hindering the secure and lawful ...

Spanish energy firm Zelestra and Portuguese utility EDP have signed what they call the "first" solar-plus-storage power purchase agreement (PPA) in the Spanish renewables ...

This project plays a significant role in supporting Spain and the wider EU in meeting their net-zero ambitions, as battery energy storage is a pivotal component in ...

Spain's Ministry for Ecological Transition and the Demographic Challenge (MITECO) has published the provisional resolution of its first tender ...

A 12GWh pumped hydro project and a 1,200MWh battery energy storage system in New South Wales (NSW) have been submitted to Australia's Environment ...

Spain's Ministry of the Environment has formally launched its latest financial support scheme for energy storage, aiming to kickstart the ...

UK energy firm Octopus Energy has expanded its Spanish presence through the acquisition of solar farms in Navarre and Albacete with a combined capacity of 100 MW, as ...

The Spanish government approved Royal Decree 7/2025 on June 24, resolving several long-standing obstacles

hindering the secure and lawful deployment of energy storage ...
