

Spain mobile charging outdoor power supply price

Where are EV chargers available in Spain?

Canary and Balearic Islands: While some progress has been made, these regions lag behind mainland Spain in terms of widespread access to EV chargers, particularly fast-charging stations. The Spanish government, as part of its green energy initiative, plans to significantly expand EV charging infrastructure.

How much does EV charging cost in Spain?

Many companies, such as Iberdrola and Wallbox, offer home charging solutions in Spain, with prices ranging from EUR600 to EUR1,200, depending on the charger's capabilities and installation requirements. Many supermarkets and large retail outlets across Spain are stepping up to offer EV charging stations in their parking areas.

How EV charging infrastructure is growing in Spain?

The Spanish government, as part of its green energy initiative, plans to significantly expand EV charging infrastructure. The government aims to install 100,000 charging points by 2030 as part of its Sustainable Mobility Strategy. Investment from private companies like Repsol and Iberdrola is also fueling rapid growth in EV infrastructure.

How much does electricity cost in Spain?

They are distributed across 167 locations, 50 of which are in Spain. On the Peninsula and Balearic Islands, the charging rate is EUR 0.39/kWh for AC up to 22 kW and EUR 0.45/kWh for DC up to 60 kW. DC charging up to 150 kW costs EUR 0.55/kWh and EUR 0.65/kWh for 150 kW or more.

Does Spain offer incentives for EV owners?

Spain also offers government incentives for EV owners, including subsidies for installing home charging points, which can cover up to 70% of installation costs. Home charging is becoming increasingly popular as more Spanish households invest in EVs. To install a home charging station, you will need:

How much does EDP charge in Spain?

EDP has 800 charging points in the country. Through its EDP Move On app, the company with over 100 years of history in Spain offers two rates at its 800 charging points. Charging at up to 22 kW costs EUR 0.47/kWh, while charging at up to 50 kW is priced at EUR 0.60/kWh.
