

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

The project, led by portfolio company Mine Storage, aims to convert a decommissioned iron mine in Norberg into a pumped hydro energy storage facility. The ...

Battery storage systems is one of the many solutions, products and services that we offer for sustainable and efficient energy production and consumption. ...

What drives the deployment of battery-based energy storage projects in Sweden and Finland, and how do those projects create value for investors and society alike? The ...

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system ...

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ...

EV Charging ESS Project: Energy Storage Solution for Heavy-Duty Vehicle Charging in Norway 2025-07-28  
Background A Norwegian construction company, specializes in groundworks, ...

In December, the Swedish Energy Agency awarded grants to four projects to support innovation in the fields of aerospace engineering, sodium-ion batteries, carbon dioxide ...

The project demonstrated the possibility of storing hydrogen for steel production on an industrial scale  
Sweden's Hybrit, a joint venture between steelmaker SSAB, mining ...

Pioneering industrial projects in the steelmaking and transport sectors will help demonstrate the viability of new green hydrogen technologies and scale up ...

Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout ...

Batteries are a crucial piece of the puzzle if we are to achieve Sweden's climate goals with net-zero emissions by 2045. Batteries enable the ...

# Swedish Industrial Energy Storage Project

BW ESS is a global energy storage owner-operator, moving with speed to deliver market-leading projects across multiple countries. Through Greenfield ...

Founded in 2009, they focus mainly on electric mobility and charging, they've run a number of big energy storage projects, including 3 megawatt energy storage system in Johan Cruijff Arena in ...

Based in Stockholm since 2020, Neoen's Swedish team has a healthy projects pipeline across the country, including more than 400 MW storage projects. This is fully in line ...

Alfen and Sermatec are deploying BESS projects in Sweden and Bulgaria, while terralyr has raised US\$83 million for its pipeline.

This initiative represents the deployment of 14 large-scale battery storage facilities with a total capacity of 211MW/211MWh - a historic investment and milestone in Sweden's ...

In December, the Swedish Energy Agency awarded grants to four projects to support innovation in the fields of aerospace engineering, sodium ...

The project aims to enhance the flexibility and resilience of Sweden's energy system, supporting the country's competitiveness while strengthening the grid in both the short ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the ...

HYBRIT's hydrogen storage pilot project is now completed and reported to the Swedish Energy Agency. The project has built a 100 cubic ...

Why Sweden Is Leading the Charge in Energy Storage a country where electric cars charge using structural batteries hidden in their chassis, and industrial towns once known ...

The Energy Agency aims to make a first allocation before the end of this year. Besides the bio-CCS aid, financial aid for CCS-projects in ...

Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff ...

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern ...

In Sweden, the Hydrogen Breakthrough Ironmaking Technology (HYBRIT) partnership has announced that its

pilot project for hydrogen gas storage has now been ...

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will ...
