

Togo, a small West African nation, is poised for a significant boost in its renewable energy capacity. In May 2025, the African Development Bank (AfDB) approved a financing ...

Construction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include 36,000 solar panels across 52 ...

With this 400 MW solar project, Togo positions itself as a regional leader in the energy transition. The country demonstrates that strategic vision, technological advancement, ...

Dubai, United Arab Emirates; November 23, 2022: AMEA Power, one of the fastest growing renewable energy companies in the Middle East, ...

Is the new Togo solar power plant sustainable? H.E. Mohammed Saif Al Suwaidi, Director General of ADFD, said: "This new Togo solar power plant truly reflects the level of sustainable ...

Raising the share of renewable energy through small scale solar photovoltaic and exploiting hydropower is the current route chosen for electrification in Togo. The authorities ...

The emirati developer behind the nation's first private utility scale solar project cited the financial certainty offered by the host government under ...

Dubai, United Arab Emirates; November 23, 2022: AMEA Power, one of the fastest growing renewable energy companies in the Middle East, announced today the ...

Togo launches an international call for tenders for a new photovoltaic solar power plant in Dapaong, with an investment of \$60 million.

A flagship project is the Dapaong solar photovoltaic power plant, launched in April 2025, with a capacity of 25 MWp and a storage system of 36 to 40 MWh. This energy site is ...

Togo's off-grid solar energy sector represents a means of expanding access to electricity in the country. The government intends to create an environment favorable to the growth of this ...

Togo is preparing to launch an ambitious 400-megawatt (MW) solar energy development project as part of its strategy to achieve...

The new 62 MWp solar power plant in Sokodé, Togo, backed by EUR26.5 million from the African

Togo New Energy Photovoltaic Site

Development Bank Group, sets the stage for a sustainable energy future.

A 50MW solar PV plant in Togo will be expanded to 70MW capacity, creating West Africa's biggest PV project, while grid-scale battery storage will also be added at the site. ...

The Regional Emergency Solar Energy Intervention Project (RESPITE) led by the Republic of Togo has commenced the tender process for the procurement of a Photovoltaic ...

The meeting gathered key energy sector stakeholders, including public authorities, regulatory agencies, the Togo Electric Power Company (CEET), and several technical and ...

Some of the country's flagship renewable energy projects include Blitta's PV plant, one of the largest in West Africa. It currently produces 50 MW, but this capacity is being ...

Developed by Meridiam and Électricité de France (EDF), the project is integral to achieving Togo's 2030 goal of installing 200 MWp of renewable energy capacity, enhancing ...

Dubai-based clean energy company AMEA Power has commissioned a 50-MW solar photovoltaic (PV) power plant in Togo that is now among the largest ones under the ...

A flagship project is the Dapaong solar photovoltaic power plant, launched in April 2025, with a capacity of 25 MWp and a storage system of 36 ...

The 50MW Sheikh Mohamed Bin Zayed solar power plant in Blitta, a prefecture, and town located in the Central Region of Togo has been commissioned officially in a ...

Future Implications: By 2027, Togo could see improved energy storage capabilities across its solar plants, ensuring a more reliable renewable energy supply for its citizens. ...

Dubai, United Arab Emirates; March 22, 2023: AMEA Power, one of the fastest growing renewable energy companies in the Middle East, ...

Where is the largest solar power plant in Togo? The solar power plant is located in Blitta, a division in the Central Region. With a capacity of 50 MWp, the Mohamed Bin Zayed plant ...
