How many solar energy products are installed in Kenya?

As of 2016, M-KOPA Solar, a privately-held Kenyan solar energy company, had installed 225,000 solar energy products in the country. Kenya has committed to reducing its carbon dioxide emissions by 30 per cent by 2030.

How do solar panels produce electricity in Kenya?

Solar Panels in Kenya convert the sun's rays into electricity during the day to generate electricity used in the night. To order, contact our sales agents at 0711477775, 0711114001, or 0711114777. Majority of the solar panels in Kenya work by absorbing the sun's rays and converting them into electricity. To learn more, talk to our sales agents.

What solar products do you stock?

Save on an extensive range of products, from your typical residential solar inverters, charge controllers, dc/pv cables, solar batteries, solar pumping solutions and more. We stock a wide variety of brands from Europe, America and Asia, our major brands include Victron, Outback Solar, Deye, Jinko, Longi, Huawei, Megasun and more.

What are the different types of solar panels?

There are three main types of solar panels, monocrystalline, polycrystalline and thin film. Monocrystalline solar panels are more efficient than polycrystalline panels however, perovskite solar cells are in development which reach efficiencies of 45% but are not yet commercially viable.
