

Which 5G base stations are there in Cape Verde

Will Cape Verde be able to offer 4G services?

The 4G license awards came after three months of network trials that began in June on the island of Sal, which, with about 34,000 inhabitants, is the fifth most populous island in Cape Verde. The regulator seems happy with the results and has indicated that operators can begin making commercial 4G services available.

Will Cabo Verde be the first country to introduce 5G?

Despite the likely challenges of rolling out 5G (and for that matter 4G) to the country's 10 islands Deputy Prime Minister Olavo Correia has been quoted as saying said that Cabo Verde wants to be among the first countries in Africa to introduce 5G technology.

What telecommunications services are available in Cabo Verde?

The two main telecommunications providers in Cabo Verde are Alou (formerly CV Mvel) and Unitel T+. They offer excellent coverage across the islands, ensuring that travellers can enjoy quality internet connections, even in the more distant locations. Internet access can be obtained via mobile data, Wi-Fi, and fixed broadband.

What is 5G & how does it work?

5G is the fifth generation of mobile phone communications standards. It is a successor to 4G and promises to be faster than previous generations while opening up new use cases for mobile data.

What is the Cape Verde Digital Governance Project?

t, Digital Governance. The Project will support the Government of Cape Verde (GoCV) in its recent efforts to support activities aimed at increasing its capacity to better develop the digital governance plan, in a context of providing clear indications for infrastructure connectivity, notably in the development of a roadmap to implement the 5G sy

What are the requirements for a 5G network architecture?

of at least 1.0 Gbps. Network architecture must be based on the Non-Stand Alone (NSA), in order to facilitate the evolution of existing operators' 4G core network to a 5G core network, as well as facilitate interoperability between 4G and 5G networks and between suppliers
