

Which Outdoor Power Supply is Better in Djibouti

What type of plug does Djibouti use?

In Djibouti the power plug sockets are of type C and E. Check out the following pictures. Type C: also known as the standard "Euro" plug. This socket also works with plug E and plug F. Type E: this type is of French origin. This socket also works with plug C and with plug F if it has an additional pinhole.

Do I need a voltage converter in Djibouti?

If the standard voltage in your country is in the range of 100 V - 127 V (as is in the US, Canada and most South American countries), you need a voltage converter in Djibouti. You can find voltage converters at Amazon. You can also consider a combined power plug adapter/voltage converter.

Does Djibouti have geothermal power?

Djibouti currently has just over 100 MW of installed generation capacity, but only 57 MW is reliably available to serve a population of 940,000 and its key industries. Geothermal resources in Djibouti have been recognized for years, and exploration activities are currently underway to identify economic vapor resources.
